CS 350 – Software Engineering

October 13, 2017

Week 8, Class #23

Dev Tools

Mark Seaman

MWF – 10:00-11:30 - Kepner 0095F

This Week – Technology

- ✧ **Monday, 10-9**
  - ▪ Lecture – Learning

- ✧ **Wednesday, 10-11**
  - ▪ Lecture – Frameworks

- ✧ **Friday, 10-13**
  - ▪ Lecture – Dev Tools

Next Week

Design

Development Tools

- ◇ IDE
- ◇ Version Control
- ◇ Test Tools
- ◇ Issue Tracking
- ◇ Collaboration Tools
- ◇ Automation Tools
- ◇ Hosting solution

IDE Features

✧ Text editor

✧ Project files

✧ Color syntax

✧ Auto completion

✧ Refactoring

✧ Debug

Version Control

⬦ Git

- Peer-to-peer repos
- Start simple
  - status/add/commit
  - pull/push

⬦ Github or Bitbucket

- Web hosting services

Test Tools

✧ Unit testing

✧ Test plan

✧ System testing

Issues Tracking

✧ Atlassian Jira - Github issues

✧ One source of truth

✧ Integrate with source code & test tools

✧ Start simple

Collaboration Tools

◇ File Sharing

  ▪ Dropbox, Google Drive, One Drive

◇ Notes

  ▪ Evernote, One Note

◇ Email

  ▪ Gmail, Outlook

◇ Meetings

  ▪ Hangouts, Skype, Goto Meeting

Collaboration Tools

✧ Organization

 ▪ Save unstructured info as text

 ▪ Add structure as needed

 ▪ Build search filters

✧ Notes – 15 seconds to capture an idea

Automation Tools

✧ command line scripting

✧ custom commands for common tasks

Hosting solution

✧ Common answer for hosting ($10/month)

✧ Application shell

✧ Deployment scripts
